# جماعت دعوت و اصلاح ایران

In the Name of Allah

## **Alhamd-U-Lillah Wasalat u wasalma Ala Rasoolillah**

Dear President of the Conference, esteemed members of the Board, honorable brothers and sisters in Islam, and dear guests: Assalamu Alaikum va Rahmatollah va Barakatohu.

First of all, we congratulate on the holding of the present conference and thank the executive managers and the Union of the NGOs of the Islamic world and also wish the Umma of Islam ever-growing success in the achievement of their high, humane and Godly dreams.

It is a great pleasure and satisfaction for us that the "Jama'at Da'wa wal-Islah of Iran", as a founder member of the UNIW and also a small member of the great and ever-growing movement of the Islamic awakening found the opportunity to participate in this conference. We are also carrying the warmest Salams of all your brothers and sisters in Iran and special, truthful and warm salams of Brother Abdol Rahman Pirani, the president of Jama't Da'wa wal-Islah, who could not personally attend this valuable meeting due to the noble Haj trip.

Holding such conferences is the fruit of the esteemed Islamic awakening. This can doubtlessly, help to recognize the available challenges facing the Umma of Islam. It can also play a great role in introducing suitable and up-to-date procedures and solutions to the problems and finally help to fulfill a conscious and rule-governed movement which is based on God's rules (Sonan) covering life and death of the civilizations.

Muslims have experienced various ups and downs in their life and, they believe that, in the era of the Islamic awakening, they can make use of the experiences and based on the rules of God, respecting humanity, caring for the mass wisdom, cooperation and social work they can perform their crucial duty which can lead to the reproduction of the Islamic civilization.

We hope that holding such conferences will clarify the following issues much better:

Giving exact definition of Islamophobia, recognizing internal and external causes of the birth and growth of this phenomenon, finding out the negative role of some Islamic groups in expanding it, pointing out suitable solutions to prevent the expansion of it, discriminating real "Islamophobia" from the pseudo ones, and finally finding its historical roots, and the mafia actions of some mass media in expanding it.

Finally, we take the holding of this conference in Istanbul, a city with such a great historical background, as a good omen. We present our best thanks and appreciation to the government and people of Turkey.

With the best wishes for the Islamic World
